

**NAME:** Vince Sunter  
**POSITION:** Director of Engineering & Projects  
**PROFESSION:** BE (Mech)

**OVERVIEW**

Experienced Project & Engineering Manager with over 30 years of experience in major brownfield capital design construct projects. For the last two+ decades focused on coal materials handling & processing sector.

**KEY SKILLS**

- Development and management of complex major projects and innovative solutions for heavy Industry. Gets large diverse teams really humming.
- Project management, engineering, design, procurement and construction in the materials handling and mineral processing industry.
- Expert witness.
- Multiple projects in coal materials handling and processing including conveyors & bulk storage bins, truck & rail loading systems, ROM receival & crushing, reclaim systems, washery upgrades and extensions.

**RECENT ASSIGNMENTS**

- Calsun / iPUT – CHPP throughput step increase strategy
- PNG OK Tedi – \$US250M crusher upgrade project back on schedule
- Rio Tinto – Hail Ck high throughput screen upgrade eng’g & project mgr
- Qld Nickel – Innovative radial stacker design
- Rio Tinto – Mech lead for Mt Pleasant CHPP feed systems
- Mt Arthur North – Materials handling system design review
- Coburn Mine – Track mounted dozer trap screening system
- Rail Corp – Client rep for OSCar train supply and retrofit program
- CCG Consortium – Coal Chain efficiency improvement
- Boggabri Mine – Project mgr for crushing & automated load-out system
- Invincible Mine – Develop full CHP material handling system options
- Narrabri Coal Mine – Innovative train loader development
- PWCS Carrington – Develop alternate productivity options
- Hebburn Mine – Eng’g & supply mgt for CHPP

**EXPERIENCE**

**Company:** iPUT Pty Ltd  
**Position:** Director of Engineering & Projects  
**Date:** 2017 to Present  
**Duties:** Development & delivery of various CHPP throughput step increase projects and clean coal technology applications

**Company:** Calsun Projects Pty Ltd  
**Position:** Project Manager, Engineering Manager, Expert Witness  
**Date:** 2002 to 2017  
**Duties:** Specialist consulting services for materials handling, general mining, and major manufacturing projects

**Company:** Contracted to Downer EDI Mining  
**Position:** Design Manager  
**Date:** 2006 to 2007  
**Duties:** Management of the design for surface infrastructure at the Newpac Mine Project

**AREAS OF EXPERTISE**

- Project Management
- Engineering Management
- Design Management
- Operations & Maintenance
- Contract Management
- Bid Management
- Materials handling problem solutions
- Shutdown Management

**EDUCATION AND TRAINING**

- BE (Mech)
- Lean Six Sigma Yellow Belt
- Uni Bulk Solids Handling intensive refresh course
- Many mgt systems / skills courses incl Kepner Tregoe, safety, strategic planning and risk mgt

**Memberships**

- Member of Australian Institute of Project Managers
